

Telephone Services

There are 3 types of pay phone currently in operation. The old fashioned coin phones now use 0.50 leva tokens, which can be bought at many kiosks. Alternatively there are card phones of two types - BTK (orange phones) and Mobika (blue phones), with cards ranging in price from 4 to 25 leva. They can be bought at certain shops, kiosks or post offices. **M-tel** and **Vivatel** are GSM operators providing digital cellular telecommunication services in Bulgaria. **GloBul** is the trademark, under which Cosmo Bulgaria Mobile EAD offers telecommunication services in Bulgaria. Europe, America, Near East, Japan, Africa and Australia can be dialed directly. For those countries that cannot be dialed directly you must order the call by dialing & 0123. For any other kind of international operator assistance dial & 0123.
